Dear Interested Business:

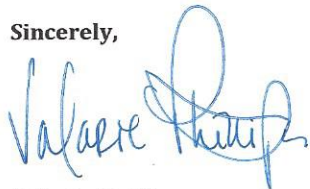

I am writing of endorsement for the services Pathogend disinfection. Vince has been working with us for the past month to medically disinfect our home after repeated illness in our household. His knowledge and attention to detail have aided in making our home germ free. The morning after the fogging, was the first morning no one woke up in our house congested. The added fact he educated us on how to prevent germs in our living area, the children's play room and in our infant room was most beneficial.

I also use Pathogend disinfection at my business, Craft Academy of Atlanta. We are in an older home. Professional disinfection tells our customers and clients that we value the sanitation in our work environment.

I feel very confident in recommending Vince and his company Pathogend disinfection services. He is not only thorough, but also easy to work with, and always willing to take the time to discuss my concerns and respond to questions.

If you have any further questions, please feel free to contact me.

Sincerely,

Valarie Phillips
